

SUB PROCESSOR LIST | CapexGPT LLC

Effective Date: January 3, 2026

Document Version: 1

1. Introduction

This page lists the third-party subprocessors that CapexGPT LLC ("CapexGPT," "we," "us," or "our") engages to process User Content and personal information on our behalf in connection with the Service.

Incorporation: This Subprocessor List is incorporated into and subject to our Privacy Policy and Terms of Service.

Change Notification: We will provide thirty (30) days' advance written notice via email to active subscribers before engaging any new subprocessor that will process User Content. If you object to a new subprocessor, you may terminate your Subscription before the engagement date per our Privacy Policy Section 4.1.

2. Current Subprocessors

2.1 Infrastructure & Hosting

Subprocessor	Purpose	Data Processed	Location

2.4 Communications

Subprocessor	Purpose	Data Processed	Location
Resend	Transactional email delivery (Capex Report delivery, password resets, system alerts)	Account data, email address, report delivery metadata	United States
Kit (ConvertKit)	Marketing email delivery (newsletters, onboarding sequences)	Account data, email address, communication preferences, engagement data	United States

2.5 Analytics

Subprocessor	Purpose	Data Processed	Location
Google Analytics	Website analytics and usage tracking	Usage data (pages visited, clicks, session duration); IP anonymization enabled	United States

3. Subprocessor Security Standards

All subprocessors are contractually required to:

- Maintain confidentiality of User Content and personal information
- Use data solely to provide services to CapexGPT
- Implement appropriate technical and organizational security measures
- Comply with applicable data protection laws
- Notify CapexGPT promptly of any security incidents

4. Data Transfer Mechanisms

For EEA/UK/Swiss users, transfers to subprocessors in the United States are governed by:

- EU Standard Contractual Clauses (SCCs)
- UK International Data Transfer Agreement (IDTA)
- Swiss-U.S. Data Privacy Framework

as applicable to each subprocessor.

5. Objection to Subprocessors

If you object to a new subprocessor:

1. You may terminate your Subscription before the subprocessor engagement date
2. You will not be charged for subsequent billing cycles
3. You are not entitled to a refund for the current billing cycle unless required by law
4. Your data will be deleted per our standard retention schedule in Privacy Policy Section 6

To object, email info@capexgpt.com with the subject line "Subprocessor Objection" before the engagement effective date.

6. Updates to This List

We update this Subprocessor List when we add, remove, or replace subprocessors. Check this page periodically for the most current information.

Last Updated: January 31, 2026

7. Contact Information

Questions about our subprocessors:
